# **Professional Diploma in Quantity Surveying**

**Accredited by the Jordanian  
Ministry of Higher Education  
& Scientific Research**

***'The Royal Institution of Chartered Surveyors (RICS) support and recognise the QS Professional Diploma course via the German Jordanian University as a very positive step to professionalising and providing surveyors in Jordan with the pre-requisite skills and competencies that we would expect to see from a Quantity Surveyor'.***

*The Diploma modules will equip the students to apply appropriate and best practices when they enter the workplace and will act as a great foundation learning skillset which will be beneficial when graduates of the programme progress in their careers and elect to apply for RICS membership status*

## PROGRAM AIMS & OBJECTIVES

Students will be able to apply their knowledge and understanding on practical scenarios designed to simulate services provided by the Quantity Surveyor, which start from feasibility and extend to the design and construction stages for any construction project.

For further information on the study plan, please follow the link below:

<http://www.gju.edu.jo/content/quantity-surveying-9393>

*This program does not lead to an academic degree, and its training hours do not count in case the trainee wishes to continue his/ her studies for such a degree.*

## ADMISSION REQUIREMENT

Students applying for the Quantity Surveying Diploma should have a degree in Engineering or Architecture.

## ENROLMENT

The course will be delivered over 9 months split into two semesters, the timing for the lectures will be in the evening and on weekend (based on two days per week).
