7th GJU Career Fair

Empowering GJU Students & Graduates

الجامعة الألمانية الأردنية
German Jordanian University

Editors: Randolph Galla, Deena Holz, Britta Kähler, Malena Knauth
Office for Industrial Links

Design/Layout: Deena Holz

Welcome note

3

Dear students, employers, and guests,

It is my pleasure to welcome you at the seventh Career Fair at the German Jordanian University.

GJU Career Fair 2017 offers a real platform for our students, university and industry to communicate and collaborate. Here, students will be exposed to the competitive work environment and get a close knowledge of the required employment skills and market trends. Further, this fair helps students in planning their careers ahead of graduation.

Since it starts in 2011, the GJU Career Fair has become a prominent annual event which enables GJU students and graduates to connect and interact with companies, training and scholarship providers, as well as startups and entrepreneurship support organizations. Over the past years, this Career Fair guide has been an effective reference for students to learn about the important companies in their field and to network directly with them. GJU has steadily reinforced its relationship with the industry to graduate students who are able to meet the needs of the market. The GJU vision for the coming decade is based on Education for Employment and Entrepreneurship (E for E&E). Within this framework, the University has established several units to serve this purpose including Office for Industrial

Links, and Program for Innovation and Entrepreneurship. In May 2016, the University established the Industrial Relations Committee, which aims at steering this relationship with the industry in a way that strategically serves the applied education, entrepreneurship, and development of students' employment skills. One of the most important projects that the committee is working on is the creation of an employment compass that provides the student with the technical and soft skills needed by the labor market.

Finally, I would like to thank those who contributed to the success of this Fair; the participating and sponsoring companies, and the organizers of the Career Fair 2017; the Office for Industrial Links in cooperation with the Career Guidance Office of the King Abdullah II Fund, the public relations, supplies and service department, and all GJU family.

I wish you a pleasant and productive time at the GJU Career Fair 2017!

*Dr. Ziad Abuelrub
Head of Industrial Relations Committee
German Jordanian University*

Career Guidance & Alumni Office / KAFD

Company Portrait KAFD has established Career Guidance Offices (CGOs) at Jordanian universities under the Deanship of Student Affairs (DSA) to provide career guidance and placement services for university students to meet the market needs. To date, KAFD has a network of 21 CGOs across Jordanian universities, 10 of which are at public universities.

The KAFD CGO at GJU offers Career Counseling and Training Courses and also organizes events & workshops for students.

Webpage: www.jefe.jo

Background

Jordan Education For Employment is a locally registered non-profit organization that leads a national initiative to create job opportunities for unemployed Jordanian youth. JEFE has partnered with leading businesses, philanthropists, and educational institutions for a strong support base. JEFE is part of a network of affiliated locally-run non-profit organizations based in Egypt, Jordan, Morocco, Palestine, Tunisia and Yemen, a presence in the Gulf, and support organizations in the United States, Europe and the UAE. Since 2006, JEFE has trained over 5000 youth in eight program areas and over twenty sessions, placing 80% directly into jobs while maintaining a six-month retention rate of 67%. JEFE has a vibrant alumni network, with alumni giving back to current trainees and the community.

Our Vision

JEFE's vision is to empower youth with the skills and opportunities they need to build careers that create a better future for themselves, their communities and the world.

Our Mission

The mission of Jordan Education For Employment (JEFE) is to create economic opportunities for Jordanian youth through demand-driven employment and entrepreneurship training. Through technical, vocational, and managerial programs, JEFE aims to empower youth to make a living and contribute to Jordan's future economic development. JEFE's primary aims are (1) reducing unemployment among young Jordanians and (2) building a generation of confident, competent, and professional leaders in Jordan's workforce.

1) Employer Partnerships

JEFE strives to build strong partnerships with private sector companies, every month JEFE holds business development meetings with private sector companies to discuss areas of cooperation and development of relations between the two parties. JEFE collects letters of support and association on a monthly basis to tighten the relationship with the private sector.

4) On-The-Job Training

Upon completion of a JEFE training program, graduates are placed in a one-month, on-the-job training position with partner employers. This allows graduates to apply their newly acquired skills prior to full-time job placement. During this period, JEFE continues to monitor graduates' progress.

2) Outreach and Selection

JEFE seeks balance of need and motivation in selecting program participants. Qualified youth are between the ages of 18 and 26, have been unemployed in the formal economy for at least two months, exhibit socioeconomic need, are currently out of school, and meet employer- and training-partner requirements.

5) Job Placement

JEFE works to ensure all graduates are placed in jobs. As JEFE graduates come from low socioeconomic backgrounds with limited formal job opportunities, it is particularly meaningful that they receive full-time jobs with a contract and benefits, opportunities for professional development, reasonable working hours, working conditions that abide by international standards, and healthy and safe workplace.

JEFE recruits program participants by advertising in traditional and social media outlets, reaching out through community-based partner organizations in local governorates, and meeting with youth, family members, and community leaders. These multilayered sourcing strategies build strong ties between JEFE and the local community, and are essential for recruiting female candidates.

6) Monitoring and Evaluation (M&E)

JEFE's internal M&E strategy uses SMART (specific, measurable, achievable, realistic, and timely) quantitative and qualitative indicators. These indicators identify project achievements and areas in which JEFE is succeeding or needs improvement. JEFE assesses all training programs for rates of gender acceptance, graduation, job placement, and job retention. Monthly formal check-ups are conducted for graduate progress. Participants are surveyed at the beginning and at the end of each program, as well as six and twelve months after graduation, to track effectiveness in both the short- and long-term. JEFE analyzes this data to maximize the outcome of programs, identify and address emerging problems, assess efficiency, and maintain standards.

3) Training

JEFE's Vocational and Technical training programs combine workplace success, soft skills, technical, and entrepreneurship training to prepare beneficiaries with the professional and personal skills needed to excel in their job placements and/or new business start-ups.

Portrait Our company offers different training courses in Drywall systems in our training center in Jordan (Gypsum Boards Ceilings & Partitions), and it's all for free. Courses will enhance the knowledge of Architects and Interior Design students about ways and benefits of using materials, and its performance within buildings, whether used indoor or outdoor.

iPARK

Up to date, there has been a concentrated effort in developing entrepreneurship and innovation support programs in Jordan, including incubators, accelerators, investment facilitation and tech transfer. At the forefront of all of those programs is the iPARK Technology Hub, (iPARK), which was established in 2003, and has included a technology incubator (iPARK), IP Commercialization Office (IPCO), Queen Rania Center for Entrepreneurship (QRCE), and Bedaya Business Angel Network (Bedaya).

As of 2016, iPARK has had 13 years of continued success in providing entrepreneurs and innovators with support and professional services needed to establish and grow their businesses and/or protect and commercialize their research outputs. This success is attributed to its learnings from international centers of excellence, its active interaction with local entrepreneurs and innovators, and its practical hands-on experience in understanding and matching the demand.

Today, iPARK is uniquely positioned as:

- The first and only technology incubator in Jordan with recognizable incubation operations with KPIs that are geared towards economic development, job creation and entrepreneurship support.
- The first and only central node in the national technology transfer network with agreements and working relationships with multiple major universities and research centers.
- The only national entity that can successfully link innovation outputs with entrepreneurial activities, and the only one that can successfully support entrepreneurial activities towards generating innovation outputs.

iPARK track record and major achievements include:

- Incubating +70 companies (an average of 10 companies per incubation cycle)
- Creating +2,000 direct and value added jobs from its incubation operations
- Achieving +85% success rate of incubated companies (success rate includes not only being in existence after incubation, but also growing in terms of jobs, revenues, and markets)
- Providing +3,500 people with boot camps, training, workshops and mentorship programs
- Managing +350 IPs
- Providing 13 national organizations and main national universities with IP services
- Raising +USD 1,200,000 in angel investment
- Contributing to multiple regional and international success stories of Jordanian entrepreneurs and innovators under iPARK's support - Many of iPARK graduates provide services to Fortune100 companies in strategic areas of operations, have captured significant regional and international market shares, and are leading sector development in current technologies within the ICT, clean technology, healthcare and life sciences sectors.

What we are looking for **Fields of Study**
Bachelor's Degree of Industrial Engineering and of Mechanical and Maintenance Engineering
Qualifications
Computer and communication skills, English Language, ability to work under pressure, a keen eye for details, capability of meeting deadlines and take initiative and responsibilities at work

We offer Fresh Graduate Positions, Young Professionals Positions (2-3 years work experience)

Contact Info hshaban@elzay.com

ELZAY Ready Wear Manufacturing Company was established in 1992 as a public shareholding company, with a paid up capital of \$21 million. Its 21,000 sqm (227,500 sqft) plant is located 25 Km from Amman (the capital city) and is equipped with advanced garment manufacturing equipment, machinery and systems. In order to achieve its objectives, ELZAY entered in a joint venture with the Italian industrial giant Gruppo GFT, one of the world's most legendary manufacturers of famous designer names. Through the Know-How provided by GFT, ELZAY has successfully managed to produce high quality men's tailored garments: suits, jackets, trousers and woven shirts with technical specification and characteristics adopted by our Italian counterparts. Today, ELZAY has expanded its tailored garment manufacturing abilities to include ladies wear. The know-how transfer from GFT, coupled with the wealth of local skilled human resources, continuous career development, research, creative designers, as well as top of the line sourcing of accessories and fabrics imported from all over the world, ensure ELZAY's quality production. ELZAY capacity today is 230,000 men's jackets, 380,000 trousers, 150,000 shirts, 180,000 ladies jackets and 200,000 ladies pants and skirts

Mission

To develop, produce, manage and market men's and ladies wear concepts from the tailored stylish classic, to the fashion styles categories. These concepts are meant to address today's consumer demands for reliability, comfort and price through well-designed quality lifestyle products. Always striving to stay as one of the leading manufacturers in our field.

Vision

In all of our activities, we at ELZAY are committed to creating prosperity, always with integrity, to reward our customers, employees, shareholders and the community at large. We believe in developing an environment which liberates talent, inspires enthusiasm and solidifies commitment within the ELZAY family. Only through this can we excel and maximize our competitive advantages. Our management is based on openness, direct communications, continuous learning and training, and care and respect for everyone involved. As the business continues to expand, a diversity of cultures is expected to influence our business. This diversity will be incorporated within the professional values that have already been implanted in ELZAY from the start.

Company Portrait We are 230,000 people based in 728 offices in 150 countries, organized into 28 regions. All of our people work in one of our service lines Assurance, Advisory, Tax, and Transaction Advisory Services, or in Core Business Services, which provides internal operational support. EY is committed to doing its part in building a better working world. The insights and quality services we deliver help build trust and confidence in the capital markets and in economies the world over. We develop outstanding leaders who team to deliver on our promises to all of our stakeholders. In so doing, we play a critical role in building a better working world for our people, for our clients and communities.

رؤيتنا

أن نكون المزود المفضل لحلول البناء في الأردن
مركزين على ريادتنا المستدامة في الصحة
والسلامة وتطوير الموارد البشرية وملتزمين مع
جميع شركائنا من خلال تطبيقنا لقيم مجموعة
لافارج هولسيم.

لافارج في الأردن

الريادة والجودة والتميز

دخلت مجموعة لافارج السوق الأردني عام ١٩٩٨ من خلال شراؤها حصة في شركة لافارج الاسمنت الأردنية وهي من أكبر وأقدم الشركات الصناعية في الأردن. تمتلك مجموعة لافارج حالياً ما نسبته (٥٠٪) من رأسمال الشركة. ثم في عام ٢٠٠٨ توسعت في سوق الباطون الجاهز من خلال شركة لافارج باطون الأردن.

الطاقة الإنتاجية

للشركة مصنعين للإسمنت يقع أحدهما في الفحيص والآذر في الرشادية.

تبلغ الطاقة الإنتاجية الحالية للشركة ٤ مليون طن.

تبلغ القدرة الإنتاجية السنوية للافارج باطون الأردن ١,٩ مليون م^٣، تنتجها من خلال ٨ مواقع و ١١ خط إنتاج تابعة لها.

تمتلك شركة لافارج أسطولاً كبيراً من الخلاطات والمضخات الخرسانية الحديثة، والتي لا يزيد عمر أكثر من ٦٠٪ منها عن ثلاث سنوات.

الجودة والتميز

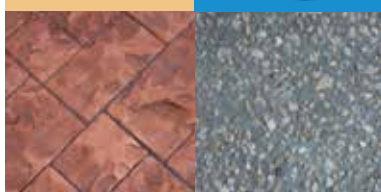

تعمل الشركة دائماً على دعم تكنولوجيا الإنتاج وتطوير طرق التصنيع من خلال تطوير وطرح منتجات مبتكرة لخدمة احتياجات الزبائن في السوق.

تدير الشركة أكبر مختبر للباطون في الأردن، يقوم بعمل أكثر من ٣٠ نوع من الفحوص المخبرية للتأكد من جودة المواد الأولية وجودة الباطون في مراحل انتاجه المختلفة.

أكثر من ٨٥٠ موظف

يعملون في لافارج الأردن ويضعون خدمة زبائنهم بأفضل الطرق كهدف وحيد على عاتقهم.

نهدف في لافارج الأردن إلى تقديم تجربة مميزة لزبائننا، من خلال تقديم أفضل الخدمات، الجودة العالية، والالتزام بالمسؤولية والقيم الإجتماعية.

maani Ventures has developed and expanded its businesses since its establishment in the early seventies, splitting into two main entities, Construction and Furniture, the core divisions of Maani Ventures.

Construction in Maani Ventures includes five divisions; **maani Prefab**, the primary company that specializes in prefabricated structures such as portable buildings and communication shelters thus expanding into the second division; **maani Steel**, specializing in the generation and development of steel structures. **maani metalform**, specializes in producing UL approved fire rated steel doors and architectural sheet metal works and cladding; and last but not least in construction **maani LGS** light steel gauge building solutions empowers clients to profitably achieve fast, reliable, and automated production & construction capabilities without the need for skilled labor, resulting in fast project completion, improved product quality.

maani Solar, the latest of maani ventures' divisions, specializes in delivering turn-key (PV) Solar renewable energy solutions using custom designed German

technologies and in-house expertise to offset almost any electricity demand.

In a strategic business decision, by venturing into the specialized furniture divisions, **maani Office Concepts** specializes in the production and not limited to the supply of high quality office furniture solutions. Moving into the functional and durable; **maani Learning & Community** provide a wide range of educational and community institutional furniture including classrooms, lecture halls, auditoriums, libraries and others.

The **maani Labs** division focuses on finding solutions for all kinds of laboratory furniture including learning, industrial and research laboratories . Expanding into the manufacturing of bentwood products, **Maani Components** specializes in the production of bent wood components increasing the wood furniture portfolio for diverse options and solutions.

maani Contract Furniture is the latest division of the group that offers turnkey contract furniture solutions; which produces (UL approved) wood doors as well as operating in the luxury fit-out industry.
