The tuition fees amount that you need to pay if you register 12 major hours and 3 language hours in the current semester i.e., Summer 2015/2016 in this example

How much money to deposit in my account?

- If in my statement of account my balance is -1000 JDs and my pending balance is -1000 JDs
- Based on the tuition fees calculator my tuition fees for the current semester would be 1220 JDs if I would like to register 12 major hours and 3 language hours in the current semester

In this case you need to deposit $1220 - 1000 = 220$ JDs

- If in my statement of account my balance is 1000 JDs and my pending balance is 1000 JDs
- Based on the tuition fees calculator my tuition fees for the current semester would be 1220 JDs if I would like to register 12 major hours and 3 language hours in the current semester

In this case you need to deposit $1220 + 1000 = 2220$ JDs

- If in my statement of account my balance is 0.0 JDs and my pending balance is 0.0 JDs
- Based on the tuition fees calculator my tuition fees for the current semester would be 1220 JDs if I would like to register 12 major hours and 3 language hours in the current semester

In this case you need to deposit $1220 - 0.0 = 1220$ JDs

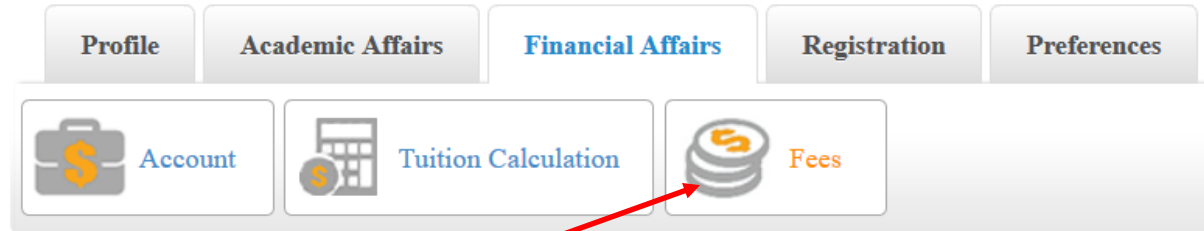

- If in my statement of account my balance is -2092 JDs and my pending balance is -2012 JDs
- Based on the tuition fees calculator my tuition fees for the current semester would be 1220 JDs if I would like to register 12 major hours and 3 language hours in the current semester

In this case you do NOT need to deposit any money in your account as you already own (have) 2092 JDs, which is more than the 1220 JDs that you need to register 12 major hours and 3 language hours

• **Note that in all the cases above we assumed that the student does not have a scholarship**
